

Installing cross-referencing

Cross-referencing is included as standard on Autocat+ v5.0. To check your current version of Autocat+, please refer to the title bar in the top-left corner of the Autocat+ window:

If you are running any version prior to v5.0, please contact support on 0870 766 7013 to arrange an upgrade.

If you are running v5.0, you should see an 'X ref' button at the bottom of the Autocat+ screen:

If you do not see this button, please do the following:

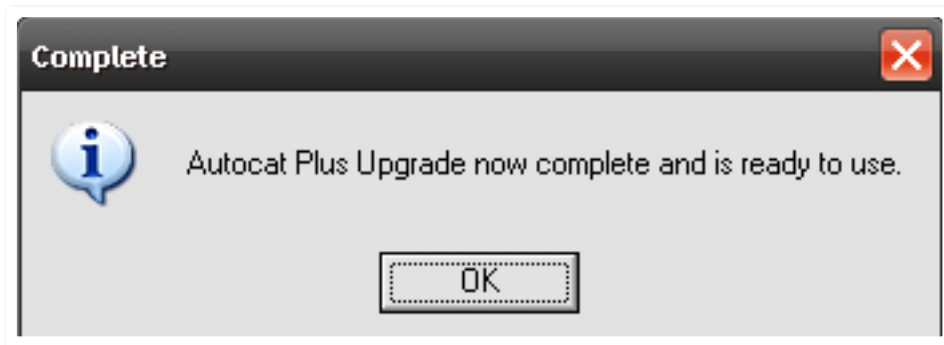

Press F12 on the keyboard, followed by F11. You should see the following prompt:

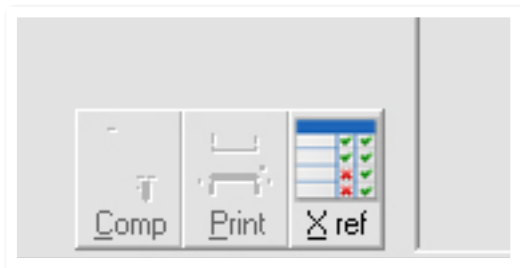

If you do not see the above message, please wait 30 seconds then re-try.

Installing cross-referencing

Quit out of Autocat+ completely. Once the download has completed, you will see the following prompt:

Re-start Autocat+ and you should see an 'X ref' button at the bottom of the Autocat+ screen:

This procedure needs to be undertaken for every installation of Autocat+
