Autowork is a Windows-based application for managing the business activities associated with a modern workshop environment. Its comprehensive array of features controls all aspects of daily activity from the creation of quotations through to the printing of job cards and the production of invoices and service and MoT reminder letters. Autowork also offers a range of additional modules offering further functionality such as ledger account, stock control and reporting. In addition, Autowork can link to optional technical resources like ICME and Autodata.
