The Melksham Motor Spares Consumables Van

More than two years ago, Melksham Motor Spares converted a consumables van into a mobile workshop with a complete workshop for their setting.

The van was an immediate success and now sells customers regularly with many the vehicle holding a full range of products needed in today's settings.

The range of products include: Tyre, battery, service, etc.

Customers are able to do the work done at their shops and sell the products and other accessories in competition with the other shops and also sell the products and other accessories.

The van is a success story and is a real marketing tool for the company and the van is a real success story and a real marketing tool.

Working out of a van Melksham Motor Spares has set themselves up with a mobile workshop and a real success story in the Melksham area, selling and servicing.

Founded in 1984, MAM Software provides professional

business management systems and data solutions to the automotive aftermarket. As the UK's leading supplier of software to this sector, our applications are employed by thousands of businesses nationwide, including motor factors, component wholesalers, accessory retailers, tyre distributors, fast fits, independent workshops and collision repair bodyshops. For workshops, garages and MoT centres, we offer our Autowork software. It's a modular application for managing daily workshop activities, creating invoices and maintaining accurate service records. It controls all aspects of daily activity, from the creation of quotations through to the printing of job cards and the production of invoices and service or MoT reminders.
