Ten ways our software can help you survive the downturn and emerge stronger

*The latest version of Autopart provides a comprehensive set of functions that can help you improve day-to-day productivity, increase profitability, and make informed business decisions that will help fuel growth*

- 1 Improve first-time-fit and reduce returns with the Autocat+ electronic catalogue
- 2 Increase sales and improve customer service with the Autonet Online web store
- 3 Target sales and prevent customer defection with the EMI+ business intelligence tool
- 4 Improve profitability by requesting credits with automatic returns to supplier
- 5 Minimise wastage and redundant stock through the new stock cleanse module
- 6 Reduce expenditure by optimising branch stocks with stock levelling routines
- 7 Cut costs by sourcing out-of-stock goods from other branches with enhanced IBT routines
- 8 Reduce postage and improve efficiency by e-mailing statements, invoices and credits
- 9 Capitalise on cross-sell opportunities by displaying prompts and reminders at point-of-sale
- 10 Administer accounts and minimise debtors with the credit control module
